

**WALLACE**  
PERIMETER SECURITY

A photograph of a Delta Cantilever Sliding Gate in a winter setting. The gate is a black metal structure with vertical bars and a chain-link infill, mounted on a concrete base. It is partially open, revealing a snow-covered driveway and a wooden fence in the background. The sky is a vibrant orange and yellow, suggesting a sunset. A wooden sign with the number '1228' is visible on the right side of the gate. A black mailbox is mounted on a silver post in the foreground. The overall scene is serene and well-maintained.

### **DELTA CANTILEVER SLIDING GATE**

The contemporary design of the Delta Gate is sturdy and safe with no diagonal braces that intruders can use to climb over. The elegance of the vertical bar infill is available in a variety of colors complementing the appeal of your property.

“We will not use ANY other gate  
except the Delta... I even promote  
this product to my competitors”

*Bill Roberts, CEO - Instore Products Ltd.*

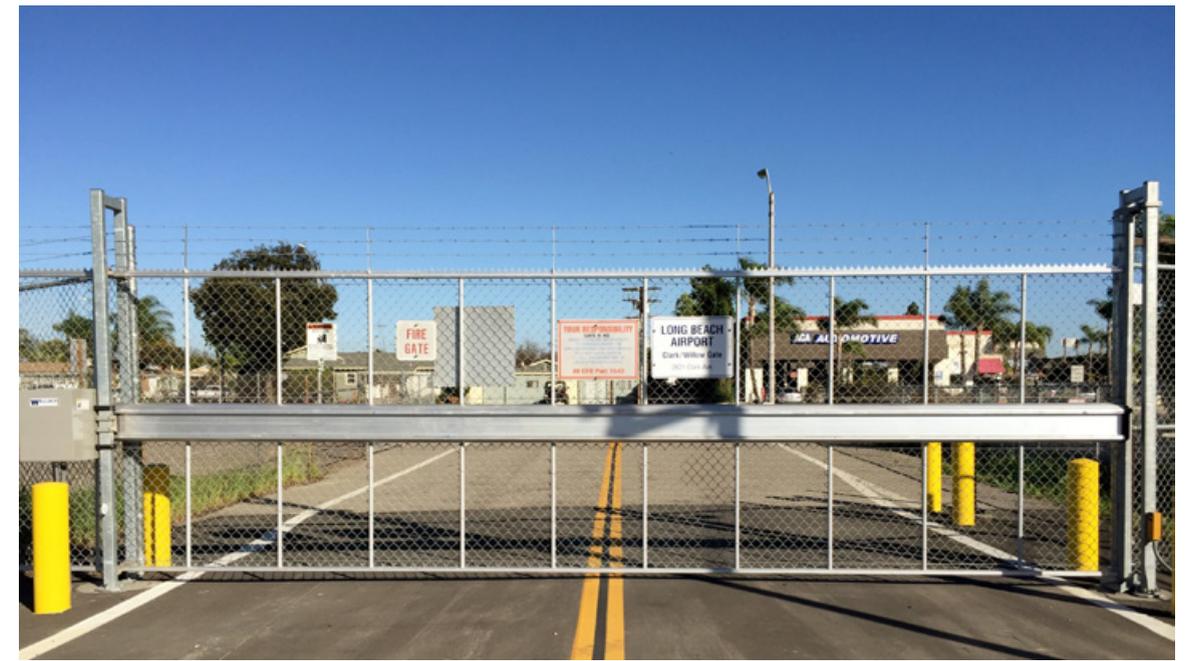

**DELTA**  
CANTILEVER  
SLIDING GATE

**ALPHA  
CANTILEVER SLIDING GATE**

The Alpha Gate combines optimum quality and security. Strong and clever, this smoothly running gate is available with a variety of infill options, including chain-link and welded wire.

“Wallace Gates have been installed in several TFI International terminals for many years now. These gates are the cornerstone of our remote yard operations. They are secure and reliable in all weather conditions”

**Jean-François Bourgoïn,**  
*Director Security at  
TFI International*

### **FOLDSMART SPEEDGATE**

The FoldSmart is designed for everyday use in a wide variety of applications. Built on the proven mechanical elements of the PDXT, the FoldSmart achieves a perfect balance of reliability and cost effectiveness. Built-in battery backup and 24 programmable features ensure a user friendly solution.

**FOLDSMART  
SPEEDGATE**

"I am the guy that gets the call when things don't work—I haven't had a call on the SpeedGates for 22 months. We will be buying more SpeedGates."

**Sgt. Steve Hanner,**  
*Houston Police Department*

### PDXT SERIES SPEEDGATE

The most robust and adaptable SpeedGate available. From elegant to bullet proof, the infill can be customized to serve the application. If you have demanding requirements for speed, security and aesthetics, then the PDXT SpeedGate is the perfect choice.

“Since the SpeedGates were installed, we haven’t paid one cent in overtime for gate maintenance- to date we have over 450,000 cycles on our gates”

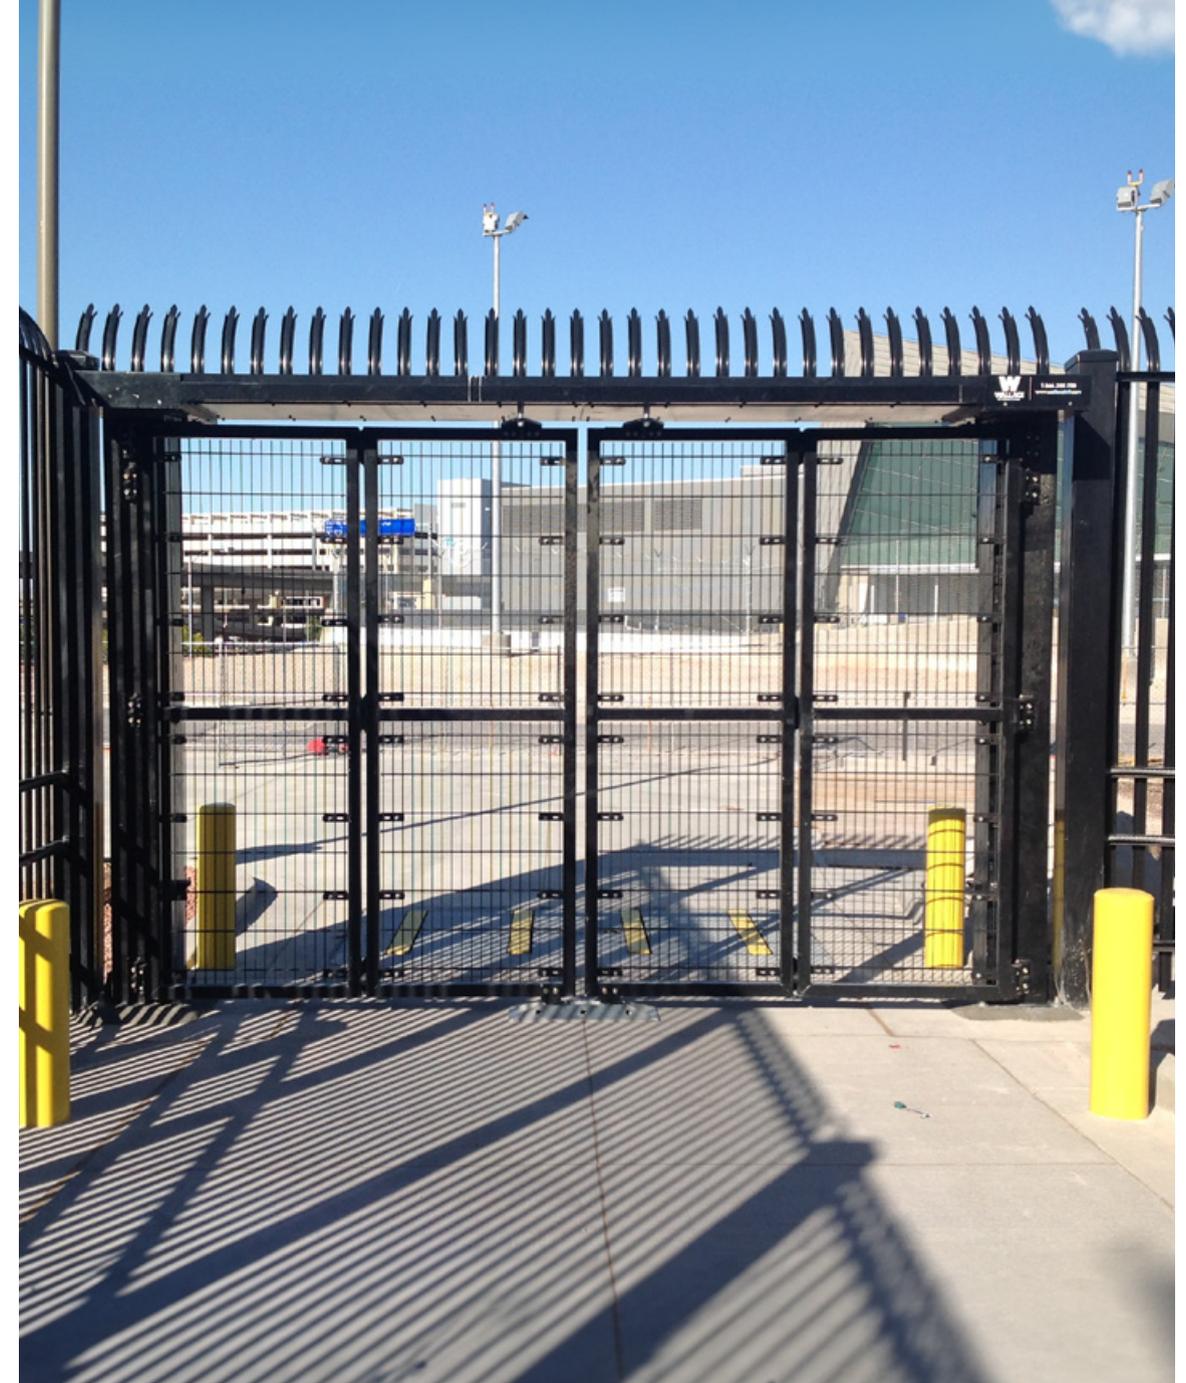

*Airport Manager,  
California*

### **PDDT SERIES SPEEDGATE**

The PDDT SpeedGate is designed with security and speed in mind. Installed in North America's highest security facilities, this gate has an imposing presence. The top track on the gate allows for increased gate heights and integration of additional security devices such as, razor wire, anti-climb hardware and traffic lights.

“The best gates we have ever had installed. I am so glad we found this product for this facility.”

**Warden David Keenhold (Ret.),**  
Munroe Correctional Facility
