RAMPART WELDED WIRE

When it comes to form and function Rampart Welded Wire has you secured. Cutting through welded mesh is time-consuming and difficult. Rampart Welded Wire adds beauty and elegance to every property it protects.

RAMPART 286 panels are aesthetically attractive and a cost-efficient alternative to traditional ornamental fencing. The special 3D technique ensures that in spite of its limited weight, this profiled panel is still astoundingly stable.

SINGLE WIRE

RAMPART 284 panels are a great entry-level, double wire fence system and the perfect solution to address the drawbacks associated with chain link fence. The strong and rigid panel offers a stable and cost-effective solution for absolute security.

2 | 8 | 4

DOUBLE WIRE

RAMPART 280 panels combine beauty with our strongest double wire panel. The welding of the wire interfaces are intended for intense security use and made to resist the onslaught of even the most motivated trespassers.

DOUBLE WIRE

RAMPART 358 panels provide an extraordinary high security solution. The small mesh openings make it nearly impossible to scale and very difficult to cut.

3 | 5 | 8

SECURITY

RAMPART 354 panels provide the highest level of security. The small mesh size combined with additional horizontal double wires ensure a strong and rigid panel.
